

Metro Gold Line Foothill Extension Construction Authority

REQUEST FOR PROPOSALS (RFP) C3004 INFORMATION TECHNOLOGY SERVICES

QUESTIONS AND ANSWERS MATRIX #2

April 29, 2025

The attached questions and answers matrix is provided in accordance with RFP [Section 1.3](#). The responses provided in this Question and Answer matrix are for your reference purposes only. They are not considered part of the RFP.

	<u>Question</u>	<u>Answer</u>
11	The Scope of Services describes the number of users between 20-75. If our pricing is tied to a number of users, how should we show that pricing?	Please refer to RFP Section 2.1.2 regarding the Price Proposal. The Construction Authority cannot advise you on your pricing structure, but the flat monthly fee should include all users whether there are 50 or 75. Please note that Addendum 2 included a revision that indicated the number of users is 50-70.
12	How should we complete the "Form 60" since the pricing structure is a fixed fee?	Form 60s have been removed from the RFP. Please see Addendum 2. Please assume the Form 60s will be removed from the contract as well.
