

# Construction Update

Metro Gold Line Foothill Extension  
- Pasadena to Azusa -

## California Ave Grade Crossing

Construction continues on the grade crossing improvements on California Ave, just north of Duarte Rd. During the past few months, crews have installed new underground and overhead utilities. An existing waterline proved to be a difficult task to upgrade but is now complete. These unexpected conditions have caused the street closure to continue longer than anticipated. Crews have also installed electrical conduits and pole foundations for the new railroad and traffic signals. Soon we will begin building the light rail tracks that cross California Ave, followed by concrete curbs, gutters, pavement, street striping, and finally landscaping. The intersection is anticipated to reopen by the end of September 2013.

Please note for three weeks beginning in mid-August, we will be working at the intersection of California Ave and Duarte Rd to complete underground utility work. During the non-peak hours of 9 am to 3 pm, Monday through Saturday, Duarte Rd will be reduced to one lane of traffic for both eastbound and westbound motorists. Flaggers will be present to direct traffic during this time.

We appreciate your patience during the construction of this project. If you have questions about the project or construction, please contact one of the representatives listed below.

### CONTACT US

#### *For questions about construction:*

Dan Kulka, Community Relations Manager  
Foothill Transit Constructors (FTC)
