

Update: Street Closure Notice

Metro Gold Line Foothill Extension - Pasadena to Azusa -

LONG-TERM INTERSECTION AND SIDEWALK CLOSURE - 1ST AVE & SANTA CLARA ST - September 9, 2013 through February 2014

WHAT

Crews will be constructing grade crossing improvements at the intersection of 1st Ave and Santa Clara St in the City of Arcadia, as part of the 11.5-mile Metro Gold Line Foothill Extension light rail project. **This work requires a full closure of the intersection including the sidewalks, at the railroad crossing, through February 2014.**

Additionally, to construct the parking structure and transit plaza adjacent to the crossing, Front St between Santa Clara St and St. Joseph St will be permanently closing in September.

WHEN

- The intersection closure is scheduled to begin on September 9, 2013 and continue through the end of February 2014, for 24-hours per day, 7 days per week. (A temporary re-opening of the intersection is planned for a few days in late October and early November 2013).
- Standard construction work hours are 7:00 a.m. to 6:00 p.m., Monday through Saturday. Occasional longer hours, work on Sundays and night work may be performed.
- In September, Front St between Santa Clara St and St. Joseph St will be permanently closed.

TRAFFIC ADVISORIES

- The intersection of 1st Ave and Santa Clara St will be closed to thru-traffic at the railroad crossing for approximately six months.
- Detour routes will be in place during the closure and signage will be posted to direct motorists.
- Sidewalk Update: For safety purposes, pedestrian access will not be allowed thru the construction zone at the intersection. Access to 24-Hour Fitness is available from the south and the west of the intersection.
- Motorists are advised to **expect delays and use alternate routes when possible.**
- During this construction activity, **all businesses including those located on 1st Ave and Santa Clara St will remain open and accessible.**

NOTE TO RESIDENTS / BUSINESS OWNERS

- Noise from construction equipment will be produced near the active work zones.
- Watering equipment will be used to control dust.
