

# I-210 BRIDGE BI-WEEKLY CONSTRUCTION NOTICE NOVEMBER 27 - DECEMBER 10, 2011

**WHAT:** Construction activity on the center median of the eastbound I-210 Freeway may require partial eastbound lane closures.

**WHEN:** Occasional partial lane closures of eastbound lanes will take place during this period. Closures will start no earlier than 10 p.m. and end by 1 p.m. the following day. No full eastbound lane closures are anticipated for this bi-weekly period.

**WHERE:** Eastbound lanes of the I-210 Freeway, between Rosemead Blvd. and Santa Anita Ave.

**WHAT TO EXPECT:** Temporary lane closures may cause traffic slowdown as construction crews continue work on the bridge's abutments (the ends of the bridge) and columns.  
During the next two weeks, construction crews will continue work on the bridge's abutments. The construction of the western abutment walls will begin this bi-weekly period. The installation of the eastern abutment foundations are in progress and will also be completed during this bi-weekly period.  
Column "forms" (the mold which will shape the bridge's three columns) have been delivered to the construction site. The forms will be erected around the existing column reinforcing cages, one column at a time, followed by a concrete pour. All three column forms are scheduled to be installed during this bi-weekly period. The signature basket shape of the columns will be installed at a later date.

*Construction schedules are subject to change for various reasons including but not limited to weather conditions and unforeseen delays. Please note that other construction projects are also affecting the Arcadia stretch of the I-210 Freeway. To learn more about upcoming ramp and lane closures from these projects, be sure to visit the websites listed below.*
