

I-210 BRIDGE BI-WEEKLY CONSTRUCTION NOTICE JANUARY 22 - FEBRUARY 4, 2012

WHAT: Construction activity on the center median and southern shoulder of the eastbound I-210 Freeway may require partial eastbound lane closures.

WHEN: Occasional lane closures of up to three eastbound lanes will take place during this period. Closures will start no earlier than 10 p.m. and end by 1 p.m. the following day. **No full eastbound lane closures are anticipated for this bi-weekly period.**

WHERE: Eastbound lanes of the I-210 Freeway, between Rosemead Blvd. and Santa Anita Ave.

WHAT TO EXPECT: During the next two weeks, crews will continue constructing the walls for the eastern bridge abutment. Work may also begin on the installation of the bridge falsework, the temporary structure that will support the bridge superstructure and main cross beam while under construction.

The falsework installation will take approximately two months to complete and will require up to 20 full eastbound lane closures over the two month period. None are anticipated during this bi-weekly period.

Construction schedules are subject to change for various reasons including but not limited to weather conditions and unforeseen delays. Please note that other construction projects are also affecting the Arcadia stretch of the I-210 Freeway. To learn more about upcoming ramp and lane closures from these projects, be sure to visit the websites listed below.
