

I-210 BRIDGE BI-WEEKLY CONSTRUCTION NOTICE MARCH 18 - 31, 2012

WHAT: Construction activity on the center median and southern shoulder of the eastbound I-210 Freeway will require partial eastbound lane closures.

WHEN: Occasional lane closures of up to three eastbound lanes will take place during this period. Closures will start no earlier than 10 p.m. and end by 1 p.m. the following day. **No full eastbound lane closures are anticipated for this bi-weekly period.**

WHERE: Eastbound lanes of the I-210 Freeway, between Rosemead Blvd. and Santa Anita Ave.

WHAT TO EXPECT: During the next two weeks, crews will complete the installation of the bridge falsework, the temporary structure that will create a safe work space for crews to construct the bridge superstructure. The photos below show the progress on the I-210 Bridge project since July 2011.

The consecutive night full eastbound lane closure activity associated with the falsework installation has concluded.

Construction schedules are subject to change for various reasons including but not limited to weather conditions and unforeseen delays. Please note that other construction projects are also affecting the Arcadia stretch of the I-210 Freeway. To learn more about upcoming ramp and lane closures from these projects, be sure to visit the websites listed below.
