

I-210 BRIDGE BI-WEEKLY CONSTRUCTION NOTICE APRIL 15 - 28, 2012

SKANSKA

WHAT: Construction activity on the center median and southern shoulder of the eastbound I-210 Freeway will require partial and/or full eastbound lane closures.

WHEN: [A full eastbound lane closure has been scheduled for this bi-weekly period on the night of Monday, April 16, 2012.](#) Full eastbound lane closures occur between Midnight and 5 a.m. Additionally, occasional lane closures of up to three eastbound lanes will take place during this period. Closures will start no earlier than 10 p.m. and end by 1 p.m. the following day.

WHERE: Eastbound lanes of the I-210 Freeway, between Rosemead Blvd. and Santa Anita Ave.

WHAT TO EXPECT: During the next two weeks, crews will continue installing the bridge “formwork,” which is effectively a “mold” into which concrete will be poured, shaping the bridge. The photo below shows the outer sections of the formwork installed to date, giving it the shape of a half-pipe. Crews will also begin installing reinforcing steel against the outer sections of the formwork. The reinforcing steel will act as the internal “skeleton” of the bridge superstructure.

Construction schedules are subject to change for various reasons including but not limited to weather conditions and unforeseen delays. Please note that other construction projects are also affecting the Arcadia stretch of the I-210 Freeway. To learn more about upcoming ramp and lane closures from these projects, be sure to visit the websites listed below.
