

# I-210 BRIDGE BI-WEEKLY CONSTRUCTION NOTICE

**APRIL 29 - MAY 12, 2012**

**WHAT:** Construction activity will require partial lane closures.

**WHEN:** Occasional lane closures of up to three eastbound and/or **three westbound lanes** will take place during this period. Closures will start no earlier than 10 p.m. and end by 1 p.m. the following day. **No full eastbound lane closures are anticipated for this bi-weekly period.**

**WHERE:** Eastbound lanes of the I-210 Freeway, between Rosemead Blvd. and Santa Anita Ave.  
**Westbound lanes of the I-210 Freeway, between Huntington Dr. and Baldwin Ave.**

**WHAT TO EXPECT:** During the next two weeks, crews will continue installing the bridge “formwork,” which is effectively a “mold” into which concrete will be poured, shaping the bridge. Crews will also begin installing reinforcing steel against the outer sections of the formwork. The reinforcing steel will act as the internal “skeleton” of the bridge superstructure. The photo below shows the outer sections of the formwork installed through April 27, 2012, and the worker identified by the red circle gives a perspective on the size of the bridge.

*Construction schedules are subject to change for various reasons including but not limited to weather conditions and unforeseen delays. Please note that other construction projects are also affecting the Arcadia stretch of the I-210 Freeway. To learn more about upcoming ramp and lane closures from these projects, be sure to visit the websites listed below.*
