

I-210 BRIDGE BI-WEEKLY CONSTRUCTION NOTICE JULY 22 - AUGUST 4, 2012

WHAT: Construction activity will require partial and full closures of the eastbound I-210 Freeway.

WHEN: One full closure of the eastbound I-210 Freeway is scheduled for this bi-weekly period. The full eastbound closure is scheduled to start on Wednesday, August 1, 2012 at 11:00 p.m. and will continue through to 5 a.m. the following morning. Lane closures will occur prior to and following this full eastbound closure. Additionally, occasional lane closures of up to three eastbound lanes may take place during this bi-weekly period. These lane closures will start no earlier than 10 p.m. and end by 1 p.m. the following day.

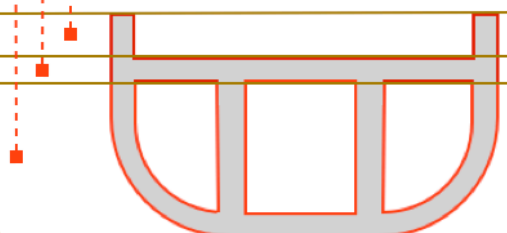

WHERE: Eastbound lanes of the I-210 Freeway, between Rosemead Blvd. and Santa Anita Ave.

WHAT TO EXPECT: During the next two weeks, crews will complete installation of the forms and reinforcing steel for the bridge deck. On the evening of August 1, 2012, crews will begin pouring the concrete for the bridge deck (identified as stage 2 in the below graphic). This effort will continue through the following morning and end at approximately 5:00 a.m.

Construction schedules are subject to change for various reasons including but not limited to weather conditions and unforeseen delays. Please note that other construction projects are also affecting the Arcadia stretch of the I-210 Freeway. To learn more about upcoming ramp and lane closures from these projects, be sure to visit the websites listed below.

I-210 Bridge Superstructure Concrete Pour

- Stage 1: Placing concrete for the main beam and bottom half will take about 220 concrete trucks to complete, over a period of about 18 hours.
- Stage 2: A month after the Stage 1 pour, the bridge deck will be poured, using about 60 concrete trucks.
- Stage 3: The bridge barrier rail will then be poured sections at a time, over the course of several weeks.

Not to scale
