

I-210 BRIDGE BI-WEEKLY CONSTRUCTION NOTICE SEPTEMBER 30 - OCTOBER 13, 2012

WHAT: Construction activities will require full closures of the eastbound I-210 Freeway.

WHEN: Up to four nights of full eastbound closures are anticipated for this bi-weekly period as follows:

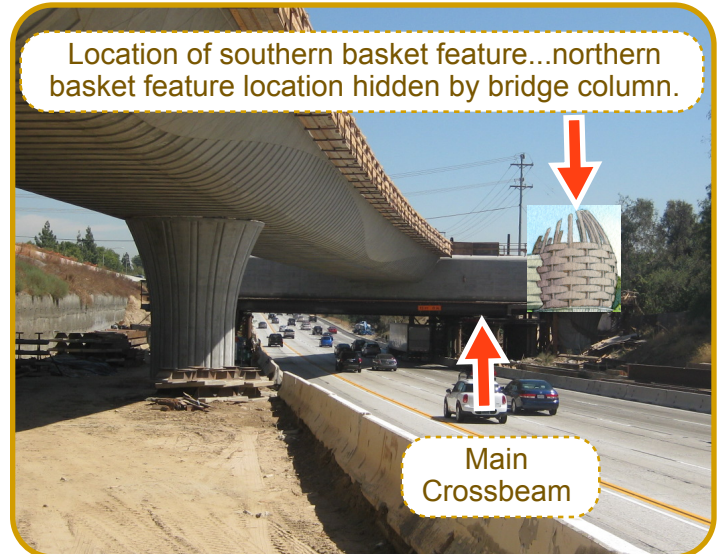

- Nightly beginning late Monday, October 1, 2012, and including, Tuesday, Wednesday and Thursday nights.

On-ramps start closing at 9:00 p.m. each night, with up to 3 lanes closing at 10:00 p.m. Full closures begin at 11:00 p.m. (Monday & Tuesday nights) and at Midnight (Wednesday & Thursday nights). All lanes will reopen by 5:00 a.m. the following morning.

WHERE: Eastbound lanes of the I-210 Freeway, between Baldwin and Santa Anita Aves.

WHAT TO EXPECT: During the next two weeks, crews will complete the bridge falsework removal (the temporary support structure supporting the bridge superstructure and main crossbeam while under construction). Additionally, crews will begin the process of installing the signature basket features (located at each end of the bridge's main crossbeam) and the retaining walls leading up to the bridge's western abutment in the freeway median. **The falsework removal is anticipated to be completed by October 4, 2012, which brings to an end the consecutive night full closures of the eastbound I-210 Freeway.**

NOTE: Construction schedules are subject to change for various reasons including but not limited to weather conditions and unforeseen delays. Please note that other construction projects are also affecting the Arcadia stretch of the I-210 Freeway. To learn more about upcoming ramp and lane closures from these projects, be sure to visit the websites listed below.
