

GOLD LINE BRIDGE BI-WEEKLY CONSTRUCTION NOTICE

OCTOBER 14 - 27, 2012

WHAT: Construction activity may require occasional lane closures of the eastbound I-210 Freeway.

WHEN: Occasional lane closures of up to three eastbound lanes of the I-210 Freeway may take place during this bi-weekly period. These lane closures will start no earlier than 10 p.m. and end by 1 p.m. the following day. No full closures of the eastbound I-210 Freeway are scheduled for this bi-weekly period.

WHERE: Eastbound lanes of the I-210 Freeway, between Rosemead Blvd. and Santa Anita Ave.

WHAT TO EXPECT: During the next two weeks, crews will continue installing the Gold Line Bridge's signature basket features, located at each end of the bridge's main crossbeam, and the retaining walls leading up to the bridge's western abutment in the freeway median. The photos below show progress on the southern basket feature (located on the right shoulder of the I-210 Freeway) and the retaining wall in the I-210 Freeway center median.

NOTE: Construction schedules are subject to change for various reasons including but not limited to weather conditions and unforeseen delays. Please note that other construction projects are also affecting the Arcadia stretch of the I-210 Freeway. To learn more about upcoming ramp and lane closures from these projects, be sure to visit the websites listed below.
