

# The Foothill Gold Line is Making its Way to **You!**

The **Foothill Gold Line** from Azusa to Montclair is a 12.3-mile extension of the Metro Gold Line light rail system that currently runs between Pasadena and Los Angeles (a six station extension from Pasadena to Azusa is currently nearing completion). The Azusa to Montclair extension will include six future stations in the cities of **Glendora**, **San Dimas**, **La Verne**, **Pomona**, **Claremont** and **Montclair**, and is now undergoing advanced design to ready the project for ground breaking in 2017.

## You're Invited!

Join us at an upcoming community open house to learn the latest on the station design and art, project funding and more. Talk one-on-one with project representatives and the station artist for your future station. There will be no formal presentation at the open houses, so arrive anytime between 6-8 PM.

### Community Open House Times/Locations

**Thursday, April 16 (6-8 PM)**  
La Verne Community Center
