

I-210 BRIDGE BI-WEEKLY CONSTRUCTION NOTICE DECEMBER 25, 2011 - JANUARY 7, 2012

WHAT: Construction activity on the center median of the eastbound I-210 Freeway may require partial eastbound lane closures.

WHEN: Occasional lane closures of up to three eastbound lanes will take place during this period. Closures will start no earlier than 10 p.m. and end by 1 p.m. the following day. One full closure of all eastbound lanes is anticipated for this bi-weekly period. Due to the holidays, no construction activity will occur on Monday, December 26, 2011 or Monday, January 2, 2012.

WHERE: Eastbound lanes of the I-210 Freeway, between Rosemead Blvd. and Santa Anita Ave.

WHAT TO EXPECT: During the next two weeks, crews will continue constructing the walls for the two bridge abutments and forming the structure of the two remaining main columns. Additionally, crews will prepare the median for installation of falsework, the temporary structure that will support the bridge span while under construction.

Note: The signature basket shape of the columns will be installed at a later date.

A full closure of all eastbound lanes will be needed to transport the column “form” from the center median to the southern shoulder.

Construction schedules are subject to change for various reasons including but not limited to weather conditions and unforeseen delays. Please note that other construction projects are also affecting the Arcadia stretch of the I-210 Freeway. To learn more about upcoming ramp and lane closures from these projects, be sure to visit the websites listed below.
