Section #	Page #	Revision	Comment
Section 2.1.1	2-1	<u>Current planning calls for completion and operation of the M&O Facility as part of Phase 2A. As such, this document analyzes the construction and operation of that facility in Monrovia, as described in Chapter 3, Project Description, and in Irwindale, as described in Chapter 5, Alternatives.</u>	This revision has been added as the last two sentences of the first bullet point in Section 2.1.1 to clarify that there is a need for the M&O Facility to be constructed adjacent to the Phase 2A alignment and at the same time as Phase 2A to ensure sufficiency of support services for the expanded service area.
